

## The Role of “THE TREAT” Game

Puppies are notorious for picking up everything and anything. Acknowledging that while dogs explore the world through their mouth and nose, this can also be dangerous when they start gulping items or get a hold of something poisonous. Let’s teach our puppy a fun game that could save their life! It is called the treat game.

Week 1: Once a day (if possible) wait for your pup to be interested in something else. Walk up to them and put the tasty treat at their nose and say, “treat”. Give the pup the treat and praise. That’s it!

Week 2: Start calling “treat” and have the puppy come to you! No barriers involved. Be in sight. When the puppy comes to you, give them the treat and praise! That’s it!

Week 3: Call treat and go to the fridge. Barriers and distractions can be at play now. Challenge the pup and wait until they are playing with a toy! Reward with a tasty treat! That’s it!

Week 4: You only need to do this a few times a week. Wait for the pup to be really interested in something else (another dog, toy, bone, food, children, etc.). Give a high value treat from the fridge and praise them. That’s it!

“CHANGING LIVES ONE DOOD AT A TIME”

### The Why?

Now, anytime the puppy has something in their mouth they should not, or that you need to get from them, simply call, “treat” and go to the fridge. They will drop the item when you say treat or when they get to you. Do not put any focus on it! Put your foot over it and wait for the pup to toddle off. Then pick it up. Do not ever chase a puppy with something in their mouth. You are only adding value to it. Just call “treat” and walk to the fridge. No panic or stress! You have done your work in ensuring you don’t have a resource guarder or gulper in your house!
